If you think losing or being a traitor has anything to do with judging ability then you are not ranking anything. Winning is determined by when you stop, not ability. You can win 100 battles and be the greatest in a war. if you lost the last one then you lost the war.

You don't legally reside in a state simply because you sign a lease and get the utilities turned on. He was ineligible to vote because he was not a legal resident of Tenn. If he wished to vote he should have established legal residency. He didn't. Instead he choose transiency.

No labels. Printed white paper taped over with packing tape. .15 a page and could be done at the public library. Total cost per "bomb"? Around $16 and that is if hep aid top $ and didn't already have some of the stuff or pick it up for free.

RocksEm @RocksEm · 28 Oct 2018

A couple bags of of PVC caps, enough for all, is under $20. 8 feet of romax wire is $4.
He probably got the "timers" at a dollar store for $1. 4 rolls of electrical tape, $10. Glass? Free.

1

RocksEm @RocksEm · 28 Oct 2018

I'm sorry, but this is not remotely accurate. The total cost to make and mail these "bombs" would not have exceeded $200 and that's only if he bought everything new and did not use leftover stuff. The PVC pipe was 1" o.d. A 10 foot section, enough for all "bombs" is $5.

True based on the package. But as the article says even if they can't be machine or hand stamped they will draw through stamps with a marker. The purpose is to deface the stamps so they can't be reused. Very rare to see them unmarked at all.

What I want to know is why any of these were delivered at all. $3 in forever stamps should not have been sufficient to mail an envelope this thick down the street. Over 3/4 inch thick the minimum charge is $3.50.

The detonator in this case was useless. It's just a piece of copper wire that 'explodes" when enough power is put through it, setting off the fireworks powder. problem is the tiny battery used would never have accomplished this. Way too weak.

Haiti became the first for a reason. It's an island. hard to escape from and hard to resupply. Rebellions were never a huge concern for the south as it was too large and spread out. Haiti's ratio of slaves to whites was 10-1. The South was almost 2 whites to 1 slave.

It provided no seed capitol. most of it was used up by the South in the war effort or destroyed by the North. The only real accumulation of southern wealth which survived the war was the slaves themselves, which being citizens now, could no longer be considered property.

1

admitting your original comment had nothing to do with that but rather to express displeasure about the Bible. Dodging around isn't going to change that.

1

RocksEm @RocksEm · 3 Oct 2018

Replying to @Good_Lt @jimgeraghty

But none of that has anything to do with the fact that the entire reason you responded in the first place is because he also used the OT to explain the origin of the term and the metaphor. You wished to display your animus to the Bible, not express an opinion on BK.

1

RocksEm @RocksEm · 3 Oct 2018

Replying to @Good_Lt @jimgeraghty

No, you've explained how you do not understand the difference between a metaphor and using a metaphor. Calling anything except a goat, such as a man, offered by a priest a scapegoat is a metaphor. Being wrong in the way you use the metaphor doesn't cause it to stop being one.

The source of the term, not the metaphor. The source of the term is the Bible. And there is nothing wrong with the metaphor as anyone that didn't have preposterous dislike for the Bible would admit. You didn't read it. You were wrong. That's all that's happened here.

1

from:RocksEm

RocksEm @RocksEm · 3 Oct 2018

Replying to @Good_Lt @jimgeraghty

The fact that he isn't a scapegoat is your dispute with his opinion. That has zero to do with if the metaphor is good or not. The metaphor is used properly. And since he never even tried to apply the Bible it's irrelevant whether it is applicable to apply it.

1

RocksEm @RocksEm · 3 Oct 2018

Replying to @Good_Lt @jimgeraghty

Yes, it's fine. By your reasoning no one should ever use the word Trojan Horse and explain the word's origin either. Your animus for the Bible over road your good sense. No big deal. But that's what happened.

RocksEm @RocksEm · 3 Oct 2018

You are arguing degrees of non-sovereignty. It doesn't change the fact that neither state, Iowa or Britain, is completely sovereign say as the US or China is.

I totally agree with that. But a sovereign nation can alter and renegotiate deals at will. Being a member of the EU means you accept what comes out of Brussels no matter what. That is not sovereignty.Suggesting Britain is sovereign in the EU is like saying Iowa is in the US.

There was a statue of limitations on sexual assault in 1982. 1 year. Even after the law was changed that would still be in effect. Even today it would be as laws can not be retroactive.

As I said. By the book the most he would have gotten was a misdemeanor charge and probation with a cleared record when probation was finished successfully, not at 18 or 21. Probation would be at most a year. His record would be clean so Yale would never see it.

Which means if he went though probation clean they clear the record. If he was a legacy at Yale this would not have effected him. If he wasn't there is no way he'd get into an Ivy League school until his record was cleared. Which it probably would have been by the time he went.

The Honorable Dianne Feinstein
Ranking Member
Committee on the Judiciary
United States Senate
224 Dirksen Senate Office Building
Washington, DC 20510

Dear Chairman Grassley and Ranking Member Feinstein:

As I stated in my attorney, Barbara Van Gelder's September 18, 2018, letter, I did not ask to be involved in this matter nor did anyone ask me to be involved. We have told the Committee that I do not want to comment about these events publicly. As a recovering alcoholic and a cancer survivor, I have struggled with depression and anxiety. As a result, I avoid public speaking.

Brett Kavanaugh and I were friends in high school, but we have not spoken directly in several years. I do not recall the events described by Dr. Ford in her testimony before the US Senate Judiciary Committee today. I never saw Brett act in the manner Dr. Ford describes.

I am knowingly submitting this letter under penalty of felony.

Sincerely yours,

Mark Judge

No. But if you put a group of gay men and a group of straight men in close proximity with teen age boys for a long period of time it's much more likely that if any abuse occurs it will be from those with the attraction to males.

Yes, I read it. Donahue is wrong about the coverup, but other than that he's accurate. This is not a new crisis in PA. It's their report of the same scandal reported in Boston 15 years ago. The issue facing the Church now is the coverups and why that happened.

RocksEm @RocksEm · 17 Aug 2018

Donahue's response is not meant to achieve that. It's mean to accurately state the problem to prepare people to deal with what will need to be done to fix it.

If he refuses to ID himself how do you know he is a WHITE MALE? Are you making assumptions about his race and gender based on his appearance?

Could someone please explain the significance of their kids being friends? Kennedy is retiring as a favor to Trump? This is just silly.

Trump to Kennedy: "That's very nice ... coming from you. And say hello to your boy. Special guy."
Kennedy to Trump: "Your kids have been very nice to him."
Trump to Kennedy: "They love him, and they love him…

Unexpectedly, there is a Republican standard Democrats like.
